

LA 500SE

LA 500SE is a compact, active subwoofer system. Through the use of proprietary amplifier technology, precision manufactured woofer technology and the innovative implementation of a high efficiency chamber design, LA 500SE deliver tight, fast, controlled bass response.

Optional balanced and unbalanced signal input, Adjustable 80 to 200 Hz low pass filter. OFF/80Hz/125Hz high pass filter, phase reverted switch available, Built-in power limit protection ciruit.

Technical Specification:

Freq. Range (-10dB):	45Hz~220Hz
Max Calculated SPL (1m):	126dB
Rec. Hi pass Frequency:	20Hz
Amplifier Power:	600W
Dispersion (HXV):	All direction
LF Transducer:	15"/100mm
Crossover Frequency:	80~120Hz Adjustable
Connector:	RCA/XLR, Batanced
Input Impedance (balanced/unbalance):	20K ohm/47K ohm
AC Current 50/60Hz:	110/220V, 50/60Hz
Dim (W×H×D)	450×545×635mm
Net Weight:	45Kg
Shipping Weight:	48Ka
